**PETITION TO WITHDRAW NOTICE OF ABANDONMENT**

Under 37 CFR §1.181(a), applicants hereby petition to withdraw the abandonment of the above-referenced application. The application was abandoned under 37 CFR §1.135 for failure to respond to Examiner's Action mailed August 6, 2002.

The undersigned, applicants' attorney of record, first became aware of the abandonment upon receipt of the Notice of Abandonment mailed March 26, 2003. Applicants submit that this petition to withdraw the abandonment is being promptly submitted as required by 37 CFR §1.181(f). The Examiner's action mailed August 6, 2002 was never received by the attorney of record. A search of the file for the above-referenced application and the docketing records indicate that the Examiner's Action mailed August 6, 2002 was never received.

The following Declaration and supporting exhibits are submitted under 37 CFR §1.181(a) as proof that the Examiner's Action was never received.

**CERTIFICATE OF MAILING BY FIRST CLASS MAIL**

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Attorney's Docket No.: 12862-002001 / 0674-5737US

Declaration of Anne M. Micco regarding handling of mail received from the U.S. Patent and Trademark Office, docketing procedures, and the law firm's mail log for August 6, 2002 through September 6, 2002 (Exhibits A), and the law firm's docket for November 6, 2002 (Exhibit B) and February 6, 2002 (Exhibit C).

As Ms. Anne M. Micco explains in her declaration, neither the law firm's mail log nor docket indicates that the Examiner's Action mailed August 6, 2002 was ever received.

Applicants enclose herewith a copy of the non-received Examiner's Action, received on April 25, 2003 via facsimile from Examiner Remy Yucel at Applicants' request. Also enclosed is a response to the Examiner's Action.

If the petition to withdraw abandonment is not granted, Applicants hereby also petition under 37 CFR §1.137(b) to revive the above application, which was abandoned on March 26, 2003 for failure to respond to the Examiner's Action mailed August 6, 2002.

Applicant submits that the entire period of delay was unintentional.

Please apply any charges to Deposit Account No. 06-1050.

Respectfully submitted,

**DECLARATION OF ANNE M. MICCO**

I, Anne M. Micco, declare as follows:

1. I have been employed by Fish & Richardson P.C. since February 23, 1998. During the time in question I was the Docketing Manager in the Patent Services Department.

2. When mail is received by Fish & Richardson P.C. from the U.S. Patent and Trademark Office ("PTO"), the mail is entered and docketed into the Fish & Richardson P.C. computerized docketing system and entered into a manual log of all PTO mail received to date. It is then sent to the attorney in charge of the case for entry into the file.

3. According to our docket system the case identified as U.S.S.N. 09/761,893 filed January 17, 2001 corresponds to attorney docket no. 12862-002001 (previously attorney docket no. 11709-003001).

4. I have checked our computerized docketing system and found that the Examiner's Action dated August 6, 2002 correspondence concerning the above-captioned case was not entered or docketed under either attorney docket no.

## CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Attorney's Docket No.: 12862-002001 / 0674-5737US

5. I have checked our manual log (Exhibit A) for the period of time from August 6, 2002 through September 6, 2002 and there is no record of ever receiving the August 6, 2002 PTO correspondence.

6. I have checked copies of our docket printout showing docketing deadline occurring on November 6, 2002, the deadline. Each entry identifies the docketed date; the Fish & Richardson Attorney Docket number; the U.S. Serial Number; a description of the action; and a description of the type of deadline. For application U.S.S.N. 09/761,893, if we had received an Examiner's Action dated August 6, 2002 I would have expected to find a docketed due date of November 6, 2002 (Exhibit B) and a final deadline of February 6, 2003 (Exhibit C) for a reply to Examiner's Action. I did not find such docket entries in Exhibit B or Exhibit C.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.

**DETAILED ACTION**

This action is in response to the amendment filed 1 April 2002 in which claims 1 and 4-7 were amended, claims 8 and 12-20 were cancelled and new claims 21-31 were presented.

Claims 1-7, 9-11 and 21-31 are pending.

**RECEIVED**

MAY 28 2003

TECH CENTER 1600/2900

***Oath/Declaration***

1. The objection to the declaration has been withdrawn as the alteration made was to the date of an Inventor's signature, which alteration does not render the declaration defective.

***Response to Amendment***

2. The rejection of claims 4-11 under 35 U.S.C. §112, second paragraph, as being indefinite has been withdrawn in view of Applicant's amendment.

The rejection of claims 2, 3 and 8 under 35 U.S.C. §102(b) as being anticipated by Lucas et al (Wound Repair and Regeneration (1995) 3:449-460) is withdrawn as reconsideration of this art made it clear it did not anticipate these claims as it did not teach a porous plate in the culture device.

The rejection of claims 2, 3 and 8 under 35 U.S.C. 103(a) as being unpatentable over Lucas et al in view of Bruder et al (USP 5,942,225) has been withdrawn in view of Applicant's amendment.

Application/Control Number: 09/761,893  
Art Unit: 1636

Page 3

3. Claims 1, 4, 5, 7, 9 and 10 stand rejected under 35 U.S.C. §102(b) as being anticipated by Lucas et al (Wound Repair and Regeneration (1995) 3:449-460).

Claims 1, 4-7, 9, 10, 11, and new claim 30, stand rejected under 35 U.S.C. 103(a) as being unpatentable over Lucas et al in view of Bruder et al (USP 5,942,225).

4. New grounds of rejection, necessitated by Applicant's amendment, are presented below.

#### ***Response to Arguments***

5. With regard to the rejection of claims 1, 4, 5, 7, 9 and 10 under 35 U.S.C. §102(b) as being anticipated by Lucas et al, Applicant's arguments have been fully considered but are deemed not persuasive.

Applicant argues that Lucas et al does not teach "seeding" mesenchymal stem cells but rather teaches filtering mesenchymal stem cells through a device. This argument is not persuasive. Lucas et al teaches culturing a mixture comprising mesenchymal stem cells by plating the mixture and culturing the cells. The instant specification does not define "seeding" and it is therefore given its common meaning in interpreting the claims, that is, inoculating cells into a culturing device. Therefore the instant invention reads on the method of plating taught by Lucas et al. The rejection is maintained.

6. With regard to the rejection of claims 1, 4-7, 9, 10, 11, and new claim 30, under 35 U.S.C. 103(a) as being unpatentable over Lucas et al in view of Bruder et al (USP

Application/Control Number: 09/761,893  
Art Unit: 1636

Page 4

5,942,225), Applicant's argument have been fully considered but are deemed not persuasive.

Applicant argues that Lucas et al is a deficient reference and that Bruder et al does not make up for the deficiency. As discussed above, Lucas et al is not deficient. Bruder et al was cited to illustrate the well-known use of DMEM-LG to culture mesenchymal stem cells. Therefore this argument is not persuasive and the rejection is maintained.

**New Grounds of Rejection**

***Claim Rejections - 35 USC § 112***

7. The following is a quotation of the second paragraph of 35 U.S.C. §112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 1-7, 9-11 and 21-31 is rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague and indefinite in lacking a step which clearly refers back to the preamble. The recited steps lead to a culturing of mesenchymal stem cells however the preamble recites "a method for recovering mesenchymal stem cells".

Claim 25 is vague and indefinite in reciting improper Markush group language. There are two "ands" recited whereas there should only be one. See MPEP 2173.05(h).

Application/Control Number: 09/761,893  
Art Unit: 1636

Page 5

***Claim Rejections - 35 USC § 102***

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. §102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

10. Claims 1-5, 7,9, 21, 22, 25 and 27 are rejected under 35 U.S.C. §102(b) as being anticipated by Rieser et al (WO 97/46665; USP 6,242,247 is the national stage equivalent to WO 97/46665 and is referenced in the following as it is in English). Rieser et al teach a method of making implants comprising culturing cells capable of chondrocyte-function, including mesenchymal stem cells (MCS), in a culture device comprising a porous plate. The plate has pores in the range of 2 to 20 microns. Rieser et al demonstrate their method using cells obtained from bovine shoulder (therefore mammalian tissue). The cells thus cultured can differentiate into cartilage. Note that the preamble of the instant claims does not provide a patentable distinction when the recited steps may stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951). Thus, while Rieser et al do not teach recovering mesenchymal stem cells, this limitation is no longer recited in the steps of the amended claim. See entire document, especially the Abstract, col. 5, lines 15-19, col. 7, lines 7-11 and col. 8, lines 7-9.

***Claim Rejections - 35 USC § 103***

11. The following is a quotation of 35 U.S.C. §103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

12. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. §103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. §103(c) and potential 35 U.S.C. §§102(e), (f) or (g) prior art under 35 U.S.C. §103(a).

13. Claims 1-7, 9, 11, 21, 22, 24-27, 29 and 30 are rejected under 35 U.S.C. §103(a) as being unpatentable over Rieser et al in view of Bruder et al (USP 5,942,225). Rieser et al is applied as above to claims 1-5, 7, 9, 21, 22, 25 and 27. Rieser et al do not teach the method wherein the mixture comprising MCS is human, or that MSC are cultured in DMEM-LG. At the time the invention was made, it would have been obvious to one of ordinary skill in the art to use mammalian MSC in the method taught by Rieser et al, or to culture the MSC in DMEM-LG. One would have been motivated to do either of these as DMEM-LG is a well-known culture medium for MSC and is advantageous in providing selective attachment for MSC. One would be motivated to obtain human

MSC because of their great therapeutic value in various human pathologic conditions such as hematological cancers, and for use in bone repair and cartilage replacement. See, for instance, Bruder et al (col. 1, lines 8-12, col. 3, lines 42-54 and col. 5, lines 4-40).

### **Conclusion**

Claims 1-7, 9-11 and 21-31 are rejected.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 28 May 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

**PERIOD FOR REPLY [check either a) or b])**

- a)  The period for reply expires \_\_\_\_\_ months from the mailing date of the final rejection.  
b)  The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.  
ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1.  A Notice of Appeal was filed on \_\_\_\_\_. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2.  The proposed amendment(s) will not be entered because:
  - (a)  they raise new issues that would require further consideration and/or search (see NOTE below);
  - (b)  they raise the issue of new matter (see Note below);
  - (c)  they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
  - (d)  they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See Continuation Sheet.

3.  Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.
4.  Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5.  The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: \_\_\_\_\_.
6.  The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7.  For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: \_\_\_\_\_.

Claim(s) objected to: \_\_\_\_\_.

Claim(s) rejected: 1-7,9-11 and 21-31.

Claim(s) withdrawn from consideration: \_\_\_\_\_.

8.  The proposed drawing correction filed on \_\_\_\_\_ is a) approved or b) disapproved by the Examiner.

9.  Note the attached Information Disclosure Statement(s)( PTO-1449) Paper No(s). \_\_\_\_\_.

10.  Other: \_\_\_\_\_.

Continuation of 2. NOTE: Applicant's amendment of the claim to read "and isolating the mesenchymal stem cells prior to cell adherence to the culture device" requires a new search and new consideration to determine the patentability of the claim. The limitation was not present in a dependent claim, and had not been searched prior to the issuance of a Final Rejection. According to Applicant's "Remarks" as it regards the After Final amendment, the purpose of the amendment is to introduce a limitation that is specifically not taught by the Lucas reference applied in the outstanding rejection (see page 5, lines 12-14). Therefore, this new limitation would require further consideration that had not been given before as it regards the prior art. In addition, the literal support for the claim amendment would require new consideration since the limitation was not previously present. As a result, the After Final amendment has not been entered.

Applicant's arguments are predicated on the entry of the After Final amendment, which has not been entered. As a result, Applicant's arguments are moot.
